

Mark Scheme (Results)

Summer 2014

Pearson Edexcel Certificate GCSE
Biology (KBI0) Paper 2B

Pearson Edexcel International GCSE
Biology (4BI0) Paper 2B

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications come from Pearson, the world's leading learning company. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information, please call our GCE line on 0844 576 0025, our GCSE team on 0844 576 0027, or visit our qualifications website at www.edexcel.com. For information about our BTEC qualifications, please call 0844 576 0026, or visit our website at www.btec.co.uk.

If you have any subject specific questions about this specification that require the help of a subject specialist, you may find our Ask The Expert email service helpful.

Ask The Expert can be accessed online at the following link:

<http://www.edexcel.com/Aboutus/contact-us/>

Alternatively, you can speak directly to the subject team at Pearson about Edexcel qualifications. Their contact details can be found on this link:

www.edexcel.com/teachingservices

Pearson: helping people progress, everywhere

Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for raising achievement through innovation in education. Find out more about how we can help you and your students at:

www.pearson.com/uk

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Placing a mark within a level mark band

- The instructions below tell you how to reward responses within a level. Follow these unless there is an instruction given within a level. However, where a level has specific guidance about how to place an answer within a level, **always** follow that guidance.
- **2 mark bands**
Start with the presumption that the mark will be the higher of the two.
An answer which is poorly supported gets the lower mark.
- **3 mark bands**
Start with a presumption that the mark will be the middle of the three.
An answer which is poorly supported gets the lower mark.
An answer which is well supported gets the higher mark.
- Mark schemes will indicate within the table where, and which strands of QWC, are being assessed. The strands are as follows:
 - i) ensure that text is legible and that spelling, punctuation and grammar are accurate so that meaning is clear*
 - ii) select and use a form and style of writing appropriate to purpose and to complex subject matter*
 - iii) organise information clearly and coherently, using specialist vocabulary when appropriate.*

Question number	Answer	Notes	Marks
1 (a)	(transfer) pollen from <u>anther</u> to <u>stigma</u> ;	ignore stamen to carpel/style ignore male to female gamete	1
(b)	1. to make honey / food; 2. sugar(y) / sucrose / glucose / fructose; 3. energy / respiration;	2. ignore carbohydrate	2
(c)	(can) produce offspring / (can) reproduce / eq;	ignore egg / gamete / babies / children production ignore fertilisation	1
(d)	1. mutation; 2. (different) allele / different version of a gene / DNA / genetically different / eq; 3. resistant / resistance; 4. idea of survival; eg not all die from disease	2. ignore different gene 3. ignore immune	2
(e)	16;		1

Question number	Answer	Notes	Marks
(f)	1. the number of <u>drones</u> the queen mates with / queen may mate with different <u>drones</u> ; 2. each drone has a different set of alleles / is genetically different; 3. (queen's eggs made by) meiosis / have different alleles / eq;	ignore bees ignore mutation ignore genes	2
(g)	1. disease resistant; 2. large quantity of honey / beeswax ; 3. ability to collect nectar; 4. fecundity / more bees / eq; 5. less aggressive / eq;	1. ignore immune / combat disease / live longer / hardier 2. ignore taste / flavour / quality of honey	2

(Total for Question = 11 marks)

Question number	Answer	Notes	Marks
2 (a)	<p>A nitrogen fixation / nitrogen fixing;</p> <p>B decomposition / decomposing / decay;</p> <p>C <u>nitrification</u> / <u>nitrifying</u>;</p> <p>D <u>denitrification</u> / <u>denitrifying</u>;</p>	<p>No mark if list given</p> <p>A. allow nitrogen fixing bacteria</p> <p>B. ignore decomposers / rotting / breakdown</p> <p>C. allow nitrifying bacteria</p> <p>D. allow denitrifying bacteria</p>	4
(b)	<p>1. bacteria;</p> <p>2. fungi;</p>	<p>ignore nitrogen fixing / nitrifying bacteria / denitrifying bacteria / mushroom / toadstool / protists / detritivores / worms</p>	2
(c)	<p>1. absorption by roots / root hair cell;</p> <p>2. active transport / active uptake;</p> <p>3. (make) amino acids / (plant) protein;</p> <p>4. <u>assimilation</u> / <u>assimilate</u>; ONCE</p> <p>5. eaten / ingested by animal / herbivore;</p> <p>6. <u>digestion</u> / <u>digests</u> / <u>digested</u> / <u>eq</u>;</p> <p>7. protease / named protease;</p>	<p>1. ignore root nodules</p> <p>7. ignore enzyme</p>	4

Question number	Answer	Notes	Marks
2 (d)	1. cheaper / readily available / less transport needed / renewable / sustainable / recycles / eq; 2. less <u>eutrophication</u> / leaching / run off / <u>pollution</u> / slow release of ions / less soluble / eq; 3. improves soil structure / holds water / stops erosion / eq;	allow converse ignore less harm to environment / damage to wildlife / more natural / idea that chemicals harm humans	2

(Total for Question = 12 marks)

Question number	Answer	Notes	Marks
3 (a) (i)	heart beat(s) / heart rate;		1
(ii)	1. temperature / light / oxygen / eq; 2. age / size / sex / species / type of <i>Daphnia</i> ; 3. <u>volume</u> of water / <u>volume</u> of caffeine / <u>volume</u> of solution / <u>concentration</u> of caffeine;	1. ignore water / time 3. ignore amount	1
(iii)	1. accurate / less error / fewer mistakes / less chance of losing count / initial rate consistent / eq; 2. more readings (for replication) / quicker to collect results / less time to collect results / eq; 3. less harm/stress to <i>Daphnia</i> / caffeine effect may wear off / eq;	ignore precision allow converse	1
(b)	increases / eq;		1
(c)	(yes) repeated / done 10 times <u>AND</u> similar results (in water/caffeine) / no anomalies;	allow same	1
(d)	adrenalin(e);	allow epinephrine	1

(Total for Question = 6 marks)

Question number	Answer	Notes	Marks
4 (a)	A lens; B cornea; C retina;	A. allow lense C. ignore rods/cones/receptors/fovea	3
(b) (i)	same/similar cells / cells with the same function / all muscle <u>cells</u> / eq;	ignore group of cells alone allow group of cells working together	1
(ii)	1. radial muscles contract / circular muscles relax; 2. <u>pupil</u> dilates / widens / gets bigger / <u>iris</u> gets smaller / eq; 3. more light can enter;		3

(Total for Question = 7 marks)

Question number	Answer	Notes	Marks												
5 (a) (i)	transfer oxygen / nutrients / named nutrient / water / carbon dioxide / waste / named waste / antibodies / release progesterone; reject if linked to exchange of blood	allow examples of named nutrient eg protein ignore food	1												
(ii)	cushions / protects (from physical damage) / shock absorber / supports / eq;	protects must be qualified eg from bumps ignore keeps fetus safe / insulated	1												
(iii)	antibodies;		1												
(b) (i)	46 / 23 <u>pairs</u> ;		1												
(ii)	<table border="1" data-bbox="405 842 920 1102"> <thead> <tr> <th data-bbox="405 842 719 912">Sex chromosomes</th> <th data-bbox="719 842 920 912">tick</th> </tr> </thead> <tbody> <tr> <td data-bbox="405 912 719 951">XX</td> <td data-bbox="719 912 920 951"></td> </tr> <tr> <td data-bbox="405 951 719 989">X</td> <td data-bbox="719 951 920 989"></td> </tr> <tr> <td data-bbox="405 989 719 1027">XY</td> <td data-bbox="719 989 920 1027">✓</td> </tr> <tr> <td data-bbox="405 1027 719 1066">YY</td> <td data-bbox="719 1027 920 1066"></td> </tr> <tr> <td data-bbox="405 1066 719 1102">Y</td> <td data-bbox="719 1066 920 1102"></td> </tr> </tbody> </table>	Sex chromosomes	tick	XX		X		XY	✓	YY		Y		No mark if more than one tick	1
Sex chromosomes	tick														
XX															
X															
XY	✓														
YY															
Y															

Question number	Answer	Notes	Marks
(c) (i)	1. calcium / Ca; 2. vitamin D; 3. protein;		2
(ii)	1. more mass / heavier / extra weight; 2. growth / development / division / respiration of fetus / eq;	she has a fetus alone = 0 / she needs to feed the fetus = 0 / more energy to carry baby = 0 / energy for fetus = 0 ignore prevent anaemia / more iron for baby	2
(iii)	1. <u>red</u> blood cells; 2. haemoglobin; 3. oxygen; 4. respiration;		3

(Total for Question = 12 marks)

Question number	Answer	Notes	Marks
6 (a)	1. (cut with) scalpel / razor / scissors / knife / eq; 2. (transfer with) tweezers / forceps / eq; 3. <u>sterile</u> apparatus / <u>sterile</u> samples;	1. a cutting is made = 0 3. ignore no microbes / no pathogens	2
(b)	1. nitrate/ammonium for amino acids / proteins / nucleic acid / DNA / genetic material / eq; 2. magnesium for chlorophyll / chloroplast; 3. phosphate for ATP / DNA / cell membranes / eq; 4. <u>glucose/sucrose</u> for energy / ATP / respiration;	1. ignore nitrogen / growth 3. ignore phosphorus allow other named mineral ion with correct function	2
(c)	1. <u>sterile/aseptic</u> conditions/apparatus/samples / fungicide / bacteriocide; 2. temperature / warmth / eq; 3. (sun)light; 4. humidity / water / moisture / eq; 5. plant growth regulators / auxins / eq;	ignore oxygen / CO ₂ / pH / minerals / nutrients / pesticide / herbicide / space / overcrowding / protection from snails or predators	3

(Total for Question = 7 marks)

Question number	Answer	Notes	Marks
7 (a)	1. (ears) large surface area / increases SA:VOL; 2. heat loss / cools / eq; 3. have a blood supply / capillaries; 4. <u>vasodilation</u> ; not if linked to capillaries/veins 5. flapping / fanning / eq;	ignore shade / thin 2. allow sweating / evaporation	3
(b)	1. enzymes/active site denatured / destroyed; 2. affects reactions / affects metabolism / affects digestion / affects respiration /eq;	ignore dehydration	2

(Total for Question = 5 marks)
