

**MARK SCHEME for the October/November 2011 question paper  
for the guidance of teachers**

**5090 BIOLOGY**

**5090/21**

Paper 2 (Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

## Abbreviations

Mark schemes will use these abbreviations:

;	separates marking points
/	alternatives for the same making point
R	reject
A	accept (for answers correctly cued by the question, or guidance for examiners)
AW	accept Alternative Wording (where responses vary more than usual)
<u>underline</u>	actual word given must be used by candidate (grammatical variants derived from the same stem are excepted – e.g. excretion and excretory)
max	indicates the maximum number of marks that can be given
+	statements on both sides of the + are needed for that mark
