## MARK SCHEME for the October/November 2006 question paper

www.igexanns.com

## 0455 ECONOMICS

0455/06

Paper 6, maximum raw mark 40

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

The grade thresholds for various grades are published in the report on the examination for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2006 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

UNIVERSITY of CAMBRIDGE International Examinations

Page 2		Mark Scheme	Syllabus	Paper
	-	IGCSE - OCT/NOV 2006	0455	6
(a)	(i) I	Definition – must have next best alternative to get both marks	5.	[2]
	i i	Any of: Admissions in hospitals prevent other treatment, poli attention to other areas where burglary takes place, treatmen on other facilities. (Identification 1, Explanation 1.)
