CAMBRIDGE INTERNATIONAL EXAMINATIONS

Cambridge International General Certificate of Secondary Education

MARK SCHEME for the October/November 2014 series

0460 GEOGRAPHY

0460/23 Paper 2, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

| Pa | ge 2 | 2 | Mark Scheme | Syllabus | Paper |
|----|------|--|---|---------------|-----------|
| | | | Cambridge IGCSE – October/November 2014 | 0460 | 23 |
| 1 | (a) | (i) | dam | | [1] |
| | | (ii) | other | | [1] |
| | | (iii) | 1205 metres | | [1] |
| | | (iv) | reservoir | | [1] |
| | | (v) | orchard/plantation | | [1] |
| | | (vi) | dip tank | | [1] |
| | (b) | line | cleated ar persed | | [3] |
| | (c) | (i) | River Ruya: 44–47 mm from the left hand side of the section | | [1] |
| | | (ii) | power line: 59–62 mm from the left hand side of the section | | [1] |
| | | (iii) | gravel or earth road: 75–78 mm from the left hand side of the section eastern edge | on/within 2 m | nm of the |
| | | | Use the ruler device to measure the answers. Arrows should end within about 1 cm of the profile. Measure to the projects to. | point that th | ne arrow |
| | (d) | (i) | 340 | | [1] |
| | | (ii) | 058169 | | [1] |
| | (e) | rapid(s) island(s)/braided gentle gradient variable width flows east | | | [3] |

| | Cambridge IGCSE – October/November 2014 | 0460 | 23 |

6 (a) (i) 19–21 % [1]

(ii) Transport:

from/to airport/seaport

tours

tourists hire cars

tourists don't have their own cars

tourists use public transport/buses/taxis

air transport cruises

Primary industries:

supply tourist with food

supply raw materials for handicrafts

[2]

(b) hotels/apartments/houses/accommodation

a variety of different types/costs of accommodation

airport

good roads/expressways

railway stations

shopping

theme parks

history/castle/palace/architecture/heritage

culture/theatre/art gallery/museum/cinema

to see/take part in sports events/sports facilities

conventions/festivals

advertising/well known attractions/famous places

ports for cruise ships

seaside resorts

tall buildings

night clubs

restaurants

banks to access money

sater

cell phone coverage/internet access
